EXPERIENCE

Quest Analytics, Remote — *Product Designer*

MAY 2025 - PRESENT

- Drove end-to-end design from research to testing across core products.
- Spearheaded adoption of a design system, implemented team-wide within a year.
- Led accessibility audit and integrated improvements into design workflows.
- Partnered with engineering, PMs, and stakeholders to align on product goals.
- Restructured information architecture to improve usability and content clarity.
- Facilitated cross-functional workshops to foster collaboration and innovation.

Meta, Remote — *Product Designer*

NOVEMBER 2021 - JANUARY 2023

- Designed scalable, accessible experiences across VR, web, and mobile (iOS & Android).
- Led discovery sessions to uncover user needs and shape product direction.
- Developed personas, journey maps, wireframes, and interactive prototypes.
- Presented design solutions to cross-functional teams for feedback and alignment.

Tubman, Remote — *UX/UI Designer*

SEPTEMBER 2021 - FEBRUARY 2022

- Performed content audits to inform design ideation and structure.
- Created sketches, low-fidelity and high-fidelity wireframes with attention to accessibility.
- Collaborated closely with engineering to ensure technical feasibility of designs.

Tutoria, Remote — *UX/UI Designer*

MARCH 2021 - SEPTEMBER 2021

- Conducted user research, usability testing, and full design iterations from wireframes to prototypes.
- Ensured final designs adhered to ADA/WCAG accessibility standards.
- Collaborated with stakeholders to align design decisions with organizational goals.
